

**Production of Seussical the Musical**

*"I never worry about how a show will look when we hire Costume Gallery. It's not just the extensive costume history knowledge, but also the ability to work with the director's concept and the individual actors' bodies to create a unified look. As a director, it is so nice to know that those problems will not become mine!"*

**- Gina Kleesattel**

*Director, School for the Creative and Performing Arts  
Cincinnati, Ohio*

**Production of Beauty and the Beast**

The Costume Gallery's policy is to work with your design team and budget, to present a unified visual concept. Original costumes can be designed and constructed, or stock items can be altered to fit.

Close attention to detail and period authenticity are abiding concerns that will assist you in producing a successful show.

Whether your needs are for a few items or a whole production, our staff will be happy to assist you.
